Education

Basak, Lapu-Lapu City — Science and Technology Education Center — June 2016 | June 2020

- With Honors

Lahug, Cebu City — University of the Philippines Cebu — September 2022 | July 2026

- Bachelor of Science in Computer Science

Languages and Technologies

- Software Development: C, C++, Python, Vue.js, Nuxt.js, JavaScript, Django, HTML/CSS, Tailwind
- Cloud & Infrastructure: AWS (EC2, RDS, IAM, S3, VPC, CloudWatch), Docker, Linux Administration, Git, Selenium, Cypress

Work Experience

Site Reliability Engineer Intern — OpsWerks — July 2026 - September 2026

- Provisioned and secured AWS infrastructure (EC2, RDS, IAM, VPC) via CLI and CloudShell, including troubleshooting broken environments and configuring inbound security rules for database access
- Built and debugged Docker environments (Dockerfiles, docker-compose) across multi-container setups
- Practiced Linux system administration involving permissions/ACLs, firewall config, LVM - resolving access and environment issues in lab-based infrastructure scenarios
- Maintained clean Git workflows (rebasing, cherry-picking, PR-based fixes) across a multi-branch team project

Software Engineer Intern — Pixel8 Web Solutions & Consultancy Inc. — July 2025 - August 2025

- Designed and implemented automated test scripts using Cypress and Selenium, improving test coverage and reducing manual testing effort for a web application.
- Collaborated with cross-functional teams including developers and project managers to report findings and support the software development lifecycle.
- Developed and deployed a responsive web page using WordPress, utilizing plugins such as Elementor to build and customize page layouts, contributing to an active client project and adhering to the company's design standards.

Projects

- Layman's Law (Team Project) | https://github.com/ctrlsolutions/laymans-law
  Next.js, Django, Tailwind CSS
  A platform where Filipinos can seek legal advice and assistance from willing lawyers.
